

BLOCKS MANAGER

HOME

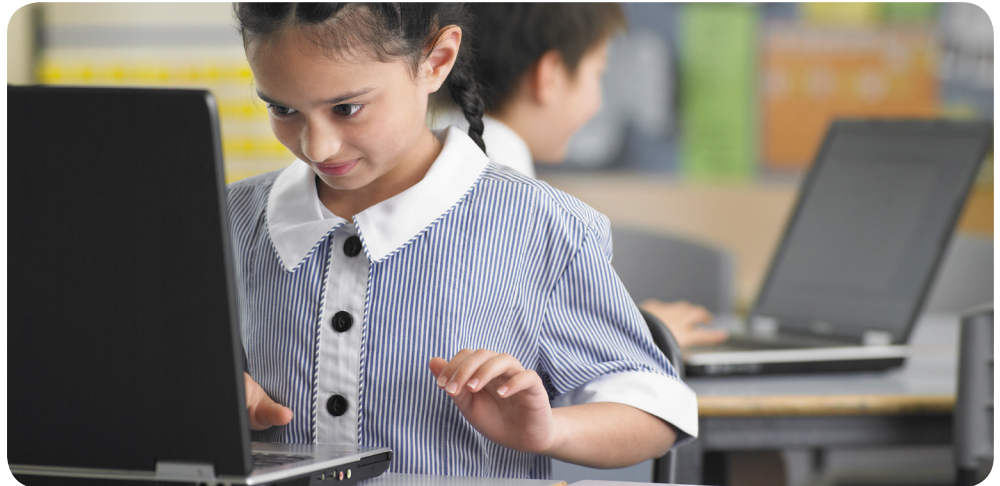

The only true parental control solution for unmanaged Chromebooks!

Parent Dashboard

On Campus and Off Campus Filtering

Trend Analysis & Analytics

Blocks Rating across 2 billion web pages

Blocks Manager Home allows parent to remotely enforce filtering policies on children's Chromebook and to know every detail on their whereabouts on the internet.

Internet filtering policies are enforced onto the Chromebook by the Blocks Manager Dashboard and such can not be removed nor disabled by the children. It filters across 45 million website classified into 79 categories.

If you own a Chromebook that's not managed by any school district and if you are looking for a reliable parental control solution then Blocks Manager Home fulfills your requirement

BMH is the parental control solution for every Chromebook owned by the family. It provides parents with a powerful and enterprise grade internet filtering solution for one or several Chromebooks, while still allowing them to get accurate analytic reports on their kid's internet usage.

The screenshot displays the BLOCKSI Manager Home interface. On the left is a navigation menu with options: Dashboard, Filters (Webfilters, Black/White Lists, Content Filters, Application Filters, Access Time Controls, Youtube Filters), Policies, Users, and Geolocation. The main dashboard area shows a 'Last 7 days' summary with two tables: 'Most visited URLs' and 'Most blocked URLs', both with columns for 'URL' and 'Count'. Below this is an 'Activity today (2016-06-08)' section with a bar chart showing 'ACCESSED PAGES' (0) and 'BLOCKED PAGES' (0).
